Celebration! On December 9th, 2017 we celebrated the Grand Opening at our new 350,000 sq. ft. expansion to our manufacturing facility. This expansion puts our total manufacturing facility at more than 800,000 sq. ft. making us one of the largest, if not the largest playground equipment manufacturing facilities in the world.

This new expansion brings even more innovation and automation. Some of our new equipment includes, but not limited to, ten (10) automated welding stations, new precision plasma cutting machines, pipe bending machines, sheet metal presses and two (2) new automated paint lines, that also double as a poly thermo dipping line. Our new rotomolded plastic compounding equipment is state-of-the-art. All this enhances our ability to craft the perfect playground more precisely and quicker than ever before.

For more than 25 years KidsTale has created playgrounds that are safe, imaginative and durable. KidsTale’s team of international designers produce designs that encourage creativity and imagination while focusing on safety. Our colorful themed units prove that you do not have to sacrifice durability and safety for artistic detail and craftsmanship.

At KidsTale we believe that children having fun and being safe is why we do what we do. We are proud certified members of IPEMA and follow all the national and international playground safety guidelines for both ASTM and the Consumer Products Safety Commission. Our long list of certifications and qualifications include, but not limited to the following: ISO 9001, IPEMA, ASTM-1487, CAN-CSA-Z614-14 and EN1176.

KidsTale is committed to providing our customers with superior service, selection and safety that exceed expectations. Our team’s desire is to be the ONLY playground equipment provider worthy of being called a true partner.
“I cannot thank you enough for the great job your team did at the North Campus! That is the best playground I have ever seen anywhere! Thank you so much for going above and beyond our expectations!”

—James River Church
“Our new KidsTale playground is the focal point of our community. The residents are grateful to have such an exciting and safe place for their children to play. Thank you for making it all possible.”

—Greenbriar HOA
“We couldn’t be happier with how this park turned out. The community and parents have not stopped talking about how great it is. Thank you for everything you did making this a reality and going the extra mile. We love it!”

—City of McAlester
MINIMO™

The MINIMO Series is part of the KidStale product line. Featuring the MINIMO Series is the best choice for interesting and unique play environments, especially for the 3-5 age group. Offering the same variety of colors as MINIMO, the MINIMO Series maximizes physical development with an infusion of interactive and age-appropriate play components.

Features:
- 3.5" O.D.
- Galvanized Steel
- Maintenance free
- Deck Size: 36' Square

KIDSTALE WARRANTY

- One Hundred Year (100) Limited Warranty on aluminum and steel upright parts against structural failure due to deterioration, corrosion or workmanship.
- One Hundred Year (100) Limited Warranty on hardware against structural failure due to deterioration, corrosion or workmanship.
- One Hundred Year (100) Limited Warranty on poly caps and stems against structural failure due to deterioration, corrosion or workmanship.
- Seven Year (7) Limited Warranty on snaks, wops, log bodies, blocks and other structural failure due to deterioration, corrosion or workmanship.
- Nine Year (9) Limited Warranty on all HDPE and rotational molded plastic components against structural failure due to materials or workmanship.
- Three Year (3) limited warranty on Cast Iron and Tool Casting, all models.
- Five Year (5) Limited Warranty on casters and bolts against premature wear due to natural degradation or molding defects.
- Five Year (5) Limited Warranty on Kelly posts against structural failure due to materials or workmanship.
- Five Year (5) Limited Warranty on all materials and products not covered above against failure due to materials or workmanship.

KIDSTALE warrants its original customer for as long as the original customer owns the product and uses the product with normal use and installation in accordance with published specifications to be free from defects in materials and workmanship. This warranty does not cover damages due to misuse, vandalism, modified parts or damage such as dents, scratches, fire damage and normal wear and tear. Warranty claims must be filed within the applicable warranty period. Warranty renewal does not include the cost of labor for part replacement. Replacement parts carry the applicable warranty from the date of shipment of the replacement part.

ISO 9001

An industry certification process issued by the International Organization for Standardization. It is used to measure manufacturing standards and to certify company compliance with quality control systems covering design, development, production, installation, inspection and testing.

ASTM

ASTM International is an independent and world renowned developer of technical standards utilized in nearly every industry. ASTM F1487 is a consolidated standard that specifies the performance requirements for Playground Equipment for Public Use. The original standard, F1487-99, was published in 1999 and subsequently replaced by the current version ASTM F1487-11, published November 2011.

ASTM INTERNATIONAL

E-mail: service@astm.org

Ogibe Group is a member in good standing of IPEMA, the International Play Equipment Manufacturers Association. IPEMA is a member-driven, international trade organization that represents and promotes an open market for manufacturers of play equipment.

In an effort to ensure play safety, the International Play Equipment Manufacturers Association (IPEMA) provides a Third Party Qualification Service whereby a designated independent laboratory, Det Norske Veritas Inc. (DNV), validates an equipment manufacturer’s certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use—except sections 7.1.1, 10, and 12.6.1; and CAN/CSA Z614. Children’s Play Structures and Equipment, except cabinets 5.5, 5.5.1, 11, or 12. Both the use of the corresponding logo in Ogibe Group’s catalog signifies that Ogibe Group has received written validation from the independent laboratory that the products associated with the use of this logo conforms to the requirements of the cited standard. Check the IPEMA website (www.ipema.org) to confirm product validation.

CPSC

The Consumer Product Safety Commission is an independent agency within the United States Federal Government with the authority to enforce the public consumer product safety performance information and requirements. The CPSC has published its guidelines for public playgrounds in 1987 and has updated their publication several times since then. The current CPSC Handbook for Public Playground Safety, publication 505, is an excellent guide for owners and operators of public playgrounds.

U.S. CONSUMER PRODUCT SAFETY COMMISSION

Washington, DC 20207
